

Participatory Workshop for Biomass Sampling and Analysis

Date: 9th-17th Dec 2009

Agenda

With the support of the Seventh Framework Programme.

Agenda

Participatory Workshop for Biomass Sampling and Analysis

The purpose of this workshop is to educate the other participants in the appropriate means of sample collection, preparation and analysis, with the aim of ensuring effective knowledge transfer and inter-regional co-operation and that these methodologies are standardised across the project. The protocols developed in UL will be communicated and demonstrated to the other partners.

Workshop is run by Daniel Hayes, UL.

Attendees:

Aparecido Alves- CTC

Magale Rambo- UNICAMP
